Headline:
Voting Incentives Add-On to StockTrack shareholder software now available to Alaskan Native Corporations and other corporations enables quick and easy payments to proxy voters. Upgrade is available FREE to licensees and prospects!

Summary:
StockTrack Shareholder Accounting software has many features customized Alaskan Native corporations. Corporations that are interested can try this software FREE. The latest Add-On Tool enables groups to quickly and easily pay voting incentives to shareholders.

Morris Plains, NJ, April 8, 2013
New features in version 15.1 of StockTrack provide special features for Alaskan Native Corporations as well as features of use to all companies that track their own shareholder accounting as well as Commercial Transfer Agents. The feature set in StockTrack is unmatched and the latest enhancements make StockTrack an even more useful tool for TA's. Features of particular interest to Alaskan Native Corporations include handling of Trust Payments to shareholders; Cash Dividends payments, and tracking when shareholders reach age of majority.

The fact that this upgrade is FREE, as always, for companies currently holding StockTrack support agreements makes this upgrade a 'no brainer' for existing licensees. The fact that prospective licensees can try it FREE makes this the perfect time to look at StockTrack.

 "StockTrack currently has the largest number of bank and bank holding company licensees of any full featured shareholder accounting software. The new features make it even more attractive to these groups as well as other self-issuers and commercial transfer agents" according to company President Abby Rosenstein.

Version 15 continues the StockTrack tradition of providing many useful enhancements to this shareholder accounting package with each release based on our customers' requests and suggestions. StockTrack provides a complete and cost effective Transfer Agent solution. The software supports issuance and transfer of stock, printing of stock certificates, cash dividends (including generating NACHA formatted ACH files for direct deposit), stock options, dividend reinvestment (DRP), tracking of shares used as collateral (pledged) against loans; proxy voting and reporting, stock splits, and all related reporting as well as support for tax reporting. It provides dozens of reports for any as-of date and generates proxy voting rights and cash distributions on a record date basis. It is in use by Commercial Stock Transfer Agents and Self Issuers, including S-Corporations, across the U.S.

Current licensees consider StockTrack the most complete and cost effective product available. They cite ease of use, extensive feature set, as-of date reports on all aspects of shareholder accounting, flexibility, cost basis information, audit trails, reasonable pricing and great support as reasons they are happy that they selected and use StockTrack. Licensees report that StockTrack is "the easiest to use" shareholder accounting software. They particularly like the system flow which makes the software easy to learn and use.

There are more than 100 reports on all aspects of shareholding accounting including stock ledgers; certificate registers; transaction journals; pro-rata ownership, K-1 Reporting, insider trading and insider ownership; dividend and split reporting; check reconciliation; debt and interest payment; dividend reinvestment; proxy voting and voting card support; warrants and options; pledge tracking; and company overview of outstanding shares. In addition, statements, confirmations, and cover letters can be printed in ready-to-mail formats. Many reports are available as Excel spreadsheets as well as formatted reports.

Go to www.stocktracksoftware.com to obtain a FREE trial version, request an invitation to a live feature demonstration over the Internet, or view a short pre-recorded StockTrack overview. Contact Figtree Software, 973-539-9311 ext. 7027 or by email to stock@figtree.com for more information.

All StockTrack licensees who are current on software maintenance and support are entitled to this update. Go to www.stocktracksoftware.com to download.
