Title:

StockTrack version 15.6 adds new features and ease of use for shareholder recordkeeping and accounting

Summary:

Figtree Software announces the release of version 15.6 of StockTrack shareholder accounting. Enhancements, such as the ability to generate checks for stock buybacks and debt redemption, further simplify and add functionality to the software. The related iStockTrack product now enables shareholders to provide updated address and other information to the TA as well as the ability to review their holdings; print statements; and vote their proxy.

Morris Plains, NJ, May 19, 2014

Figtree Software announces the release of StockTrack version 15.6. New features include the ability to generate checks for stock buybacks and debt redemption; the ability to hold cash-in-lieu checks after a replacement stock split until certificates are returned; simplified email and mailing tools; and a quick view of the status of a proxy vote.

This software, which tracks shareholder accounting for thousands of companies, has the features that transfer agent need whether the TA is tracking shareholder data for one or thousands of issuer companies and whether those companies have 20 shareholders or many thousands of shareholders.

This upgrade is free for companies holding current StockTrack support agreements. Prospective licensees can try the software free for 30 days.

Version 15.6 continues the StockTrack tradition of providing many useful enhancements to this shareholder accounting package with each release based on customer requests and suggestions.

StockTrack provides a complete and cost effective Transfer Agent solution. The software supports issuance and transfer of stock; printing of stock certificates; cash dividends (including generating NACHA formatted ACH files for direct deposit); stock options; dividend reinvestment (DRP); corporate debt and bond tracking with interest payments and tracking of shares used as collateral (pledged) against loans; proxy voting and reporting; email and printed shareholder correspondence; stock splits, and all related reporting as well as support for 1099 tax reporting and S Corporation (also called subchapter S or S-Corp) K-1 and pro-rata ownership reporting.

Because StockTrack provides 'as of' and 'date range' reporting, you can get historical information immediately. There is no need to print out all end-of-period or end-of-year reports to close periods. You can print these reports at any time. The system selects shares to receive proxy voting rights and cash distributions on a record date basis. It is in use by Commercial Stock Transfer Agents and Self Issuers, including S-Corporations, across the U.S.

Current licensees consider StockTrack a most complete and cost effective product. They cite ease of use; extensive feature set; 'as-of' date reports on all aspects of shareholder accounting; flexibility; cost basis reporting by cost basis lot; audit trails; reasonable pricing; and great support as reasons they are happy that they selected and use StockTrack. Licensees report that StockTrack is "the easiest to use" shareholder accounting software. They particularly like the system flow which makes the software easy to learn and use.

There are more than 100 reports on all aspects of shareholding accounting for both C Corps and S-Corps including stock ledgers; certificate registers; transaction journals; pro-rata ownership, K-1 Reporting, insider trading and insider ownership; dividend and split reporting; check reconciliation; debt and interest payment; dividend reinvestment; proxy voting and voting card support; warrants and options; pledge tracking; and company overview of outstanding shares. In addition, statements, confirmations, and cover letters can be printed in ready-to-mail formats. Many reports are available as Excel spreadsheets as well as formatted reports.

Go to <http://www.stocktracksoftware.com> to obtain a free trial version, request an invitation to a live feature demonstration over the Internet, or view a short pre-recorded StockTrack overview. Contact Figtree Software, 973-539-9311 ext. 7027 or by email to [stock\(at\)figtree\(dot\)com](mailto:stock(at)figtree(dot)com) for more information.

All StockTrack licensees who are current on software maintenance and support are entitled to this update. Go to <http://www.stocktracksoftware.com> to download.
